

MKANGO RESOURCES LTD

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the three months ended March 31, 2012 and 2011

Management's Discussion and Analysis ("MD&A") of Mkango Resources Ltd., formerly named Alloy Capital Corp. ("Mkango" or the "Company") should be read in conjunction with the interim consolidated financial statements and accompanying notes for the three months ended March 31, 2012 and 2011. The results reported herein have been prepared in accordance with International Financial Reporting Standards ("IFRS") and are prepared in United States dollars unless otherwise stated. This document is dated May 30, 2012.

Additional information relating to the Company, including the Company's Filing Statement, can be found on the Canadian System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com. The Company is listed on the TSX Venture Exchange under the symbol MKA.

FORWARD LOOKING STATEMENTS

Certain disclosures set forth in this MD&A constitute forward-looking statements. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "anticipate", "believes", "budget", "continue", "could", "estimate", "forecast", "intends", "may", "plan", "predicts", "projects", "should", "will" and other similar expressions. All estimates and statements that describe the Company's future, goals, or objectives, including management's assessment of future plans and operations, may constitute forward-looking information under securities laws. By their nature, forward-looking statements are subject to numerous risks and uncertainties, some of which are beyond Mkango's control, including the impact of general economic conditions, industry conditions, volatility of commodity prices, currency fluctuations, accuracy of current drill and other exploration results, environmental risks, changes in environmental, tax and royalty legislation, competition from other industry participants, the lack of availability of qualified personnel or management, stock market volatility and ability to access sufficient capital from internal and external sources. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. Mkango's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements or if any of them do so, what benefits that Mkango will derive there from. Mkango disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

COMPANY OVERVIEW

Mkango was originally incorporated under the name Alloy Capital Corp. under the laws of the Province of Alberta, Canada. Mkango completed its initial public offering on August 27, 2008 as a Capital Pool Corporation as defined by Policy 2.4 of the TSX Venture Exchange ("Policy 2.4"). On December 20, 2010 Mkango completed its Qualifying Transaction, as defined in Policy 2.4, by acquiring all of the issued and outstanding shares of Lancaster Exploration Limited ("Lancaster") through a reverse-takeover which closed on December 20, 2010.

Lancaster was incorporated August 3, 2007 by Memorandum and Articles of Association issued pursuant to the provisions of the BVI Companies Act. Lancaster's registered office is located at 56 Administration Drive, Wickhams Cay 1, Road Town, Tortola, British Virgin Islands.

Lancaster Exploration Limited, a related party, was also incorporated under the laws of Blantyre, Malawi on May 19, 2011.

Mkango is a mineral exploration company with a portfolio of properties in Malawi, Africa. The Company's headquarters are in Calgary, Alberta, Canada.

GOING CONCERN

These interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due. These interim consolidated financial statements do not reflect the adjustments or

reclassification of assets and liabilities which would be necessary if the Company were unable to continue its operations.

The Company is in the process of exploring and developing its mineral interests and has not yet determined whether the interests contain a commercially viable mineral resource. The recoverability of the amounts shown for mineral interests are dependent upon the existence of an economically recoverable mineral resource, the ability of the Company to obtain necessary financing to complete the development of such mineral resources, and upon future profitable production. The operations of the Company for the next 12 months will be funded by the equity raised during the Financings which closed December 20, 2010.

HIGHLIGHTS

As of March 31,	2012	2011
Cash used by operations	(1,212,176)	(1,020,845)
Cash from (used) by financing activities	-	(115,677)
Total comprehensive loss attributable to common shareholders	(1,597,183)	(2,196,898)
Loss per share - basic and diluted	\$ (0.04)	\$ (0.06)
Common shares outstanding	37,442,855	37,376,188
Evaluation and exploration spending:		
Malawi	1,332,411	415,326
Current assets	2,473,690	3,757,725
Current liabilities	1,213,619	991,244
Working capital	1,260,071	2,766,481

SUMMARY OF QUARTERLY RESULTS

Total Operations	2012	2011				2010		
	Q1	Q4	Q3	Q2	Q1	Q4	Q3	Q2
Revenue	\$ (3,304)	\$ 5,289	\$ 1,273	\$ 249	\$ 7,340	\$ 1,737	\$ -	\$ -
Expenses	1,877,932	517,177	1,507,771	1,394,269	936,784	320,478	112,917	67,007
Reverse takeover and public company listing costs	-	-	-	-	-	407,575	-	-
Warrant fair value loss (gain)	(277,445)	(555,098)	(179,633)	(1,270,574)	1,267,454	37,138	-	-
Loan forgiven	-	-	-	-	-	-	(195,401)	-
Net revenue (loss) for period	(1,597,183)	43,210	(1,326,865)	(123,446)	(2,196,898)	(763,454)	82,484	(67,007)
Loss per share - basic and diluted	\$ (0.04)	\$ 0.00	\$ (0.04)	\$ (0.00)	\$ (0.06)	\$ (0.68)	\$ 82.48	\$ (67.01)
Total assets	37,442,855	3,766,500	4,319,642	5,544,392	6,891,196	7,861,616	-	-
Long term debt	-	-	-	-	-	-	(270,142)	(352,625)

Total expenses for the three months ended March 31, 2012 were \$1,877,932 (2011 \$936,784). During the three months ended March 31, 2012, exploration and evaluation expenses of \$1,332,411 (2011 \$415,326) were recognized. Cash consumption during the three months ended March 31, 2012 was due to the Stage 2 drilling program. During the three months ended March 31, 2012, general and administrative costs of \$366,321 (2011 \$90,860) were recognized. These costs were also significantly higher for the three months ended March 31, 2012, as a result of the

administrative support and supplies required for the drilling program. For the same period ended March 31, 2011, the costs were lower as the Company was initiating the start-up phase of the first diamond drilling program. The Company recognized a stock based compensation expense of \$90,157 (2011 \$593,594), \$277,445 gain on the revaluation of Warrants (2011 \$1,267,454 loss), depreciation expense of \$615 (2011 nil) and a foreign exchange loss on translation of \$88,428 (2011 157,771 gain).

Total expenses for the three months ended December 31, 2011 were \$517,177 (2010 \$320,478). During the three months ended December 31, 2011, exploration and evaluation expenses of \$218,954 (2010 \$147,727) were recognized which included costs associated with initiation of the Company's second diamond drilling program. During the three months ended December 31, 2011, general and administrative costs of \$344,267 (2010 \$214,475) were recognized. For the year three months ended December 31, 2011, these expenditures were the result of increased exploration activities in Malawi. For the same period ended December 31, 2010, the costs were incurred as a result of closing the reverse takeover transaction. The Company recognized a reduction of its stock based compensation of \$76,123 (2010 nil), \$737,851 (2010 nil) gain on the revaluation of Warrants, depreciation expense of \$302 (2010 nil) and a foreign exchange loss on translation of \$22,430 (2010 nil).

Total expenses for the three months ended September 30, 2011 were \$1,507,771 (2010 \$112,917). During the three months ended September 30, 2011, exploration and evaluation expenses of \$918,725 (2010 \$84,062) were recognized which included costs associated with completion of the Company's first diamond drilling program, assaying costs and other exploration related expenses. During the three months ended September 30, 2011, general and administrative costs of \$166,706 (2010 \$28,855) were recognized and were the result of increased exploration activities in Malawi. In addition, the Company recognized \$280,521 of stock based compensation, \$184,131 gain on the revaluation of Warrants, depreciation expense of \$943 and a foreign exchange gain on translation of \$325,007.

The expenses for the three months ended June 30, 2011 was \$1,394,269 (2010 \$67,007). During the three months ended June 30, 2011, the Company completed its stage one diamond drilling program on the Songwe Hill property in Malawi. Exploration and evaluation expenses of \$728,636 (2010 \$nil) were recognized. General and administrative costs increased by \$223,244 (2010 \$67,007) for the period as a result of the increased activities in Malawi. In addition, the Company recognized \$481,384 of stock based compensation and a foreign exchange gain of \$38,995.

The expenses for the three months ended March 31, 2011 were \$936,784 (2010 \$60,384). Exploration and evaluation costs for the period were \$415,326 (2010 \$nil). During this period, the Company completed preparation work for the stage one drilling program, which commenced in April 2011. General and administrative costs were \$90,860 (2010 \$60,384) which included \$43,920 of audit fees. In addition, the Company recognized \$593,594 of share based compensation expense and a foreign exchange gain of \$162,996 (2010 \$nil).

The 2010 comparatives have been adjusted to comply with International Financial Reporting Standards ("IFRS"). No adjustments were required to the opening balance sheet at January 1, 2010.

DISCUSSION OF OPERATIONS

The Company's corporate strategy is to further delineate the rare earth mineralization at Songwe Hill and secure additional rare earth element and other mineral opportunities in Malawi and elsewhere.

As at March 31, 2012, the Company holds 100% interest in two exploration licenses in Malawi through its ownership of Lancaster. On January 21, 2010 Lancaster was granted the rights to the Phalombe license and on September 10, 2010 the Thambani license was also granted. Each of the Company's mineral properties are at the early stage of exploration.

The Company incurred a net operating loss of \$1,597,183 and \$2,196,898 for the three months ended March 31, 2012 and 2011 respectively. The increase in expenses for the three months ended March 31, 2011 is the result of the \$1,267,464 loss recognized on the revaluation of warrants.

Total assets decreased from \$3,766,500 to \$2,481,849 for the three months ended March 31, 2012, due to the consumption of cash by the Company's second exploration drilling program. The Company raised total gross proceeds of C\$7,625,026 through the Financings which closed on December 20, 2010 in conjunction with the

completion of the Qualifying Transaction. The proceeds of the Financings were partially will continue to be used to fund its exploration programs on the Songwe Hill property.

The Company's expenditures are primarily denominated in the United States dollar ("USD"). In order to mitigate the negative impact of foreign exchange rates on converting its equity raised in Canadian dollars to the USD, the Company has converted a significant portion of the funds to USD at a favorable foreign exchange rate and holds the funds in short term, interest bearing investment vehicles until such time as the funds are required to extinguish liabilities.

EXPLORATION LICENSES

The Company is a mineral exploration company whose primary business is to conduct exploration activities for rare earth elements and associated minerals. Initially, Lancaster has established the Republic of Malawi as its platform country, focusing primarily on the Phalombe district, where past exploration has indicated strong geological potential for rare earths ("REE's") and other minerals.

1. SONGWE HILL

Through its ownership of Lancaster, the Company holds a 100% interest in an exclusive prospecting license over an area of 1,283 km² in southeast Malawi (the "Phalombe License"). Its main exploration target is the Songwe Hill deposit, which features carbonatite hosted rare earth mineralization and was subject to previous exploration programs in the late 1980s and in 2010, the latter managed by Lancaster. Lancaster was awarded the licence on January 21, 2010.

The Phalombe License runs for a period of three years and is renewable for further periods of two years and two years thereafter if the terms and conditions of the Phalombe License have been met. The expenditure commitment for the Phalombe License is 43,500,000 Malawian Kwacha (US\$160,517 based on MK271 exchange rate).

Management believes that all necessary permits for Lancaster's current phase of the exploration program have been obtained.

Songwe is accessible by road from Zomba, the former capital, and Blantyre, the principal commercial town of Malawi. Total travel time from Zomba is approximately 2 hours, which will reduce as infrastructure continues to be upgraded in the area. Songwe is a volcanic vent that is expressed as a steep-sided hill rising some 230m above the surrounding plain.

The Company's corporate strategy with respect to Songwe Hill is to further delineate the rare earth mineralization through additional drilling, surface sampling and geological mapping whilst in parallel evaluating the mineralogy and assessing potential processing options for the project. During the period ending December 31, 2011, the Stage 1 drilling program, comprising 13 holes, was completed and the samples dispatched for assay. Five approximately E-W bearing lines of systematic surface channel sampling using rock saws were also completed. A detailed mineralogical programme was completed, comprising scanning electron microscope, electron microprobe and LA-ICP-MS analyses at the Natural History Museum and Aberystwyth University in the UK. Representative sections of core from 5 drill holes from Stage 1 were sent to Mintek in South Africa for scoping metallurgical test work.

On September 14, 2011, the Company announced that it had received assay results from ten of 13 diamond drill holes completed during its stage one drilling program at Songwe Hill and that it had intersected significant near surface zones of rare earth mineralization with zones of higher grade mineralization and elevated heavy rare earth enrichment also identified. Subsequently, on November 14, 2011, the Company announced it had received assay results from the remaining three holes from its stage one drilling program.

The Company commenced its Stage 2 drilling program on January 10, 2012. The Stage 2 drilling program was designed to complement the 13 hole, 2,000 meter Stage 1 drilling program and systematic channel sampling completed in 2011. The Stage 2 program is focusing on an area measuring approximately 350 by 100 meters comprising rare earth enriched carbonatite, carbonatite breccia and fenite lithologies, largely exposed at surface.

Mkango has engaged the MSA Group to complete a National instrument 43-101 compliant resource estimate for the Songwe project to commence on receipt of all the assay results.

The Company's long term continuing operations are dependent on its ability to secure equity and/or debt financing with which it intends to maintain its proposed mineral exploration programs on the Songwe Hill property. The circumstances that could affect the company's ability to secure equity and/or debt financing that are reasonably likely to occur are, without limitation, the state of the capital markets and the prevailing market prices for commodities, in particular the prevailing market prices for REE. The current trends relating to these factors are relatively favorable for the Company but could change at any time and negatively affect the Company's operations and business. Other than as disclosed herein, the Company is not aware of any trends, uncertainties, demands, commitments or events which are reasonably likely to have a material effect on the Company's business, financial condition or results of operations.

2. THAMBANI MWANZA DISTRICT

Lancaster was granted an additional exploration license by the Malawi Minister of Natural Resources, Energy and Environment on September 10, 2010 in respect of an area of 468 km² in Thambani, Mwanza District, Malawi. During the period ended December 31, 2011, the Company completed initial reconnaissance exploration in the license area. Reconnaissance work completed to date has identified a number of areas containing several existing and partially worked alluvial (and possibly elluvial) occurrences of zircon, which have become the initial exploration focus.

EXPENDITURES

The Company's principal activities require expenditures which include both exploration and general and administrative expenses. The following discussion describes the general and administrative expenditures in greater detail.

	For the three months ended March 31,	
	2012	2011
Administrative expenses	110,709	46,940
Investor communication expenses	37,554	-
Malawi field office expenses	155,641	-
Legal fees	46,063	-
Audit fees	10,276	43,920
Stock option expense	90,157	593,594
Depreciation	615	-
Mineral exploration expenditures		
Drilling	836,870	-
Camp equipment and travel	211,395	-
Technical review and analysis	92,862	415,326
Consulting fees	197,362	-
Total	\$ 1,789,504	\$ 1,099,780

Expenses of \$1,789,504 and \$1,099,780 were incurred for the three months ended March 31, 2012 and 2011, respectively. The exploration expenses totaling \$1,332,411 (2011 \$415,326) for the three months ended March 31, 2012, is the result of the exploration programs undertaken during the period on the Songwe Hill property and within the broader Phalombe License.

Stock based compensation of \$90,157 (2011 \$593,594) for the three months ended March 31, 2012, was recognized as a result of stocks options granted to officers, directors and an investment relation firm during 2011. There have been no stock options issued during 2012, to date.

General and administrative expenses of \$366,321 (2011 \$90,860) were incurred for the three months ended March 31, 2012. The general and administrative costs are associated with managing a publically traded company and

operating an exploration camp in Malawi. General and administrative costs include legal, consulting fees, office supplies, investor relations, travel, public disclosure expenses and directors' and officers' insurance.

PROPERTY AND EQUIPMENT

	Cost	Accumulated Amortization	Net Book Value
Balance at December 31, 2010	\$ 288	\$ -	\$ 288
Additions	-	-	-
Balance at March 31, 2011	288	-	288
Additions	9,732	-	9,732
Less Depreciation	-	(1,246)	(1,246)
Balance at December 31, 2011	\$ 10,020	\$ (1,246)	\$ 8,774
Additions	-	-	-
Less Depreciation	-	(615)	(615)
Balance at March 31, 2012	\$ 10,020	\$ (1,861)	\$ 8,159

Property and equipment include computer and office equipment and a vehicle which was purchased in Malawi for use in the camp.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2012, the Company had a working capital surplus of \$1,260,071 (2011 - \$2,766,481). The Company completed its Qualifying Transaction on December 20, 2010 and raised gross proceeds of C\$7,625,026. At March 31, 2012, the Company had a cash balance of \$2,438,816, which includes restricted cash of \$7,843. The funds are being used to fund the exploration program in Malawi. Management believes that the Financings have generated a sufficient amount of cash in the short and medium long term to maintain the Company's ability to meet its planned exploration activities and to meet its short and medium term objectives and milestones.

Since the Company does not expect to generate any revenue in the near future, it must continue to rely upon the sale of its equity and/or debt securities to raise capital. There can be no assurance that financing, whether debt or equity, will be available to the Company in the amount required at any particular time or for any period or, if available, it can be obtained on terms satisfactory to the Company.

ISSUED AND OUTSTANDING SHARE INFORMATION

As at the date of this report, the Company had 37,442,855 Common Shares of which 5,293,225 Common Shares are currently held in escrow, 8,066,110 warrants and 2,875,833 stock options issued and outstanding.

OFF BALANCE SHEET ARRANGEMENTS

The Company is not party to any off balance sheet arrangements or transactions.

ACCOUNTING POLICIES AND ESTIMATES

Management is required to make judgments, assumptions and estimates in the application of IFRS that have a significant impact on the financial results of the Company. Details outlining Mkango's accounting policies are contained in the notes to the interim consolidated financial statements for the period ended March 31, 2012.

BUSINESS RISKS

Readers are cautioned that the following is a summary only of certain risk factors and is not exhaustive and is qualified in its entirety by reference to, and must be read in conjunction with the additional information on these and other factors that could affect Mkango's operations and financial results that are included in reports on file with Canadian securities regulatory authorities and may be accessed through the SEDAR website (www.sedar.com).

The Company is presently pursuing direct investments in international mining projects. There is no assurance that exploration prospects will be granted in foreign jurisdictions where the Company is making applications, nor is there assurance the exploration efforts will be successful. If the Company is successful in obtaining exploration prospects in foreign jurisdictions, additional capital will be required to execute the exploration programs.

Rare earth element and related mineralogy exploration, development, production and marketing operations inherently have a number of business risks and uncertainties, including the uncertainty of finding new reserves, the volatility of commodity prices, operational risks, the cost of capital available to fund exploration and development programs, regulatory issues and taxation, and the requirements of new environmental laws and regulations.

The Company manages these risks by contracting competent professional staff, following sound operating practices and the prudent issuance of equity to fund capital expenditures so that debt does not become a burden. Extensive geological, geophysical, engineering and environmental analyses are performed before committing to the drilling of new prospects. These analyses are used to ensure a suitable balance between risk and reward. The Company conducts its operations in a manner consistent with environmental regulations as stipulated applicable local legislation. Mkango is committed to meeting its responsibilities to protect the environment wherever it may operate and anticipates making increased capital and operating expenditures as a result of the increasingly stringent laws relating to the protection of the environment. Mkango's operations are subject to the risks normally associated with the mining industry. The Company is committed to respecting the safety of its personnel, the environment and the communities where it has operations.

The mining industry has been subject to considerable price volatility, over which companies have little control, and a material decline in the price of rare earth elements could result in a significant decrease in the Company's future anticipated revenues. The mining industry has inherent business risks and there is no assurance that products can continue to be produced at economical rates or that produced reserves will be replaced. Fluctuations in currency and exchange rates and changes in production are daily risks in the mining industry.

FINANCIAL INVESTMENTS AND RISK MANAGEMENT

All financial instruments are initially recognized at fair value on initial recognition of the instrument. Measurement in subsequent periods depends on whether the financial instrument has been classified as fair value through profit or loss ("FVTPL"), held for- trading, loans and receivables, financial assets available-for-sale, financial assets held-to-maturity, and other financial liabilities.

Financial assets and financial liabilities classified as FVTPL are measured at fair value with changes in fair value recognized in net earnings or loss. Financial assets available-for-sale are measured at fair value, with changes in fair value recognized in other comprehensive income. Financial assets held-to-maturity, loans and receivables and other financial liabilities are measured at amortized cost using the effective interest method of amortization.

Cash including short-term deposits are designated as FVTPL and are measured at carrying value which approximates fair value due to the short-term nature of these instruments. Accounts receivable are designated as loans and receivables. Accounts payable and accrued liabilities are designated as other financial liabilities.

The fair value of cash and cash equivalents, accounts receivable, accounts payable and amounts due to related party approximates the carrying value. The Company does not hold any other financial instruments. The main financial risks affecting the Company are discussed below:

Fair values

The Company's cash and cash equivalents and accounts receivable and current liabilities are approximated by their carrying values due to the short-term nature of the items.

Concentration risk

A majority of the Company's cash and cash equivalents are held by one major Canadian banking institution. Deposits held with this bank may exceed the amount of insurance provided on such deposits. Generally these deposits may be redeemed upon demand and bear minimal risk.

Credit risk

The Company has negligible accounts receivable.

Commodity price risk

The Company's operations and financial results may be affected by fluctuations in commodity prices and exchange rates.

Liquidity Risk

Liquidity risk includes the risk that, as a result of the Company's operational liquidity requirements:

- The Company will not have sufficient funds to settle a transaction on the due date;
- The Company will be forced to sell financial assets at a value which is less than what they are worth; or
- The Company may be unable to settle or recover a financial asset at all.

The Company's operating cash requirements, including amounts projected to complete the Company's existing capital expenditure program are continuously monitored and adjusted as input variables change. As these variables change, liquidity risks may necessitate the Company to conduct equity issues or obtain project debt financing.

Capital Risk

The Company's objective when managing capital is to maintain a flexible capital structure which will allow it to execute its capital expenditure program, which includes expenditures in mining activities which may or may not be successful. Therefore, the Company monitors the level of risk incurred in its capital expenditures to balance the proportion of debt and equity in its capital structure. The Company has no externally imposed capital requirements.

COMMITMENTS

The Company was granted the Phalombe Licence for the Songwe property on January 21, 2010. The future spending commitments for exploration expenses up to 2013 with the Government of Malawi based on a foreign exchange rate for the local currency to US dollars of MK271, are as follows:

Exploration commitments	\$ 160,517
Ground rent	47,343
Total commitment	\$ 207,786

On September 10, 2010, the Company was granted an additional exploration licence by the Malawi Minister of Natural Resources, Energy and Environment in respect of an area of 468 km² in Thambani, Mwanza District, Malawi. The Company has not undertaken any activity on such licence area to date. The future spending commitments for exploration expenses up to 2013 with the Government of Malawi are as follows:

Exploration commitments	\$ 183,390
Ground rent	17,270
Total commitment	\$ 200,660

In November 2011, the Company was notified by the Malawi government that the ground rent had increased from 100 Kwacha (\$0.37 USD) per square kilometer to 10,000 Kwacha (\$36.90 USD) per square kilometer of licensed area.

RELATED PARTY TRANSACTIONS

- a) All expenses of Lancaster from incorporation to December 20, 2010, were paid by Leo Mining and Exploration Ltd. (“Leo Mining”) on behalf of Lancaster. The Company is considered related by virtue of common directors and officers who have an ownership in and exercise significant influence over both companies. As of March 31, 2011 Lancaster had a payable to Leo Mining in the amount of \$15,343 (2011 – \$289,772). The amount is part of an agreement between the Company and Leo Mining in an effort to help fund operations prior to the Company going public. The amount is unsecured and due on demand. Interest of 2% is to be incurred on the outstanding amount annually; however this has been waived for 2010 and 2011. During the third quarter of 2010, the former shareholder, Leo Mining, forgave \$195,401 of the outstanding loan. During 2011, the Company repaid \$115,677 of the funds advanced by the related party during the three months ended March 31, 2011. There was no repayment made during the three months ended March 31, 2012.

The Company and Leo Mining have formalized their relationship with respect to services provided by Leo Mining. A written agreement sets out the types of services to be provided and the costs associated with such services. Generally the Company shall pay all disbursements made by Leo Mining on its behalf. During the year the Company has not engaged in services with Leo Mining.

- b) For the three months ended March 31, 2012, the Company recorded \$90,327 (2011 - \$64,470) for directors fees, legal fees and key management fees and related costs. Included in accounts payable and accrued liabilities at March 31, 2012, was \$36,527 (2010 - \$8,670) due to directors and officers. The amounts owed are unsecured, due on demand and non-interest bearing.
- c) **Key management remuneration to directors and executives**

	2012	2011
Salary	\$ 90,327	\$ 64,470
Share based awards	84,343	593,594
Total compensation	\$ 174,670	\$ 658,064

The transactions were conducted in the normal course of operations and measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.
